The Aeronautical Journal of the Royal Aeronautical Society

INCORPORATING THE INSTITUTION OF AERONAUTICAL ENGINEERS AND THE HELICOPTER ASSOCIATION OF GREAT BRITAIN

VOLUME LXXIV

JANUARY - DECEMBER 1970

(S indicates Supplementary Papers)

ACCIDENT INVESTIGATION
The Role of Flight Recording in Aircraft Accident Investigation and Accident Prevention, R. G. Feltham, pp. 573-576 (July).

ACKROYD, J. A. D.
Laminar Boundary Layers Behind Strong Moving Shock Waves, pp. 155-159 (Feb.).
Shock-Induced Laminar Boundary Layers, pp. 908-911 (Nov.).

ADAIR, J. E.
A New Approach to Leadership (Lecture Summary), p. VI (Feb.).

ADVANCED PASSENGER TRAIN
The Advanced Passenger Train, A. H. Wickens (Lecture Summary), p. XXXIV (Dec.).

AERODYNAMICS
Aerodynamic Characteristics of Thick Sharp-Edged Cropped Delta and Gothic Wings Giving Low Lift-Dependent Drag, G. W. Shaw, pp. 586-589 (July).
Behaviour of the Vortex Sheet at the Trailing Edge of a Lifting Wing, K. W. Mangler and J. H. B. Smith, pp. 906-908 (Nov.).
Boundary Layer, p. 23 (Jan.).
Boundary Layer Theory and the Flow in a Streamwise Corner, M. Zamir, pp. 330-332 (April).
A Circulation Meter, J. W. Flower, pp. 396-398 (May).
A Comparative Study of Aircraft Gust Analysis Procedures, R. A. Cox, pp. 807-813 (Oct.).
Delta Wings, p. 21 (Jan.).
Effects of Rotation on a Turbulent Jet flow over a Cylinder, H. Keil and K. Sridhar, pp. 407-410 (May).
The Estimation of the Drag of Circular Cylinders at Subcritical Reynolds Numbers and Subsonic Speeds, K. D. Thomson, pp. 762-763 (Sept.).
The External Aerodynamics of Hovercraft, E. J. Andrews, pp. 472-482 (June).
Flutter of Skew Panels by the Matrix Displacement Approach, Dr. Kariappa and B. R. Somashekar, pp. 672-675 (Aug.).
The Helicopter Rotor, J. P. Jones, pp. 861-872 (Nov.).
The Impact of the Digital Computer on Engineering Sciences, J. H. Argyris, pp. 13-41 (Jan.).
Laminar Boundary Layer, J. L. Stollery, pp. 55-56 (Jan.).
Laminar Boundary Layers Behind Strong Moving Shock Waves, J. A. D. Ackroyd, pp. 155-159 (Feb.).
The Lift of a Slender Combination of a Fuselage of Rectangular Cross-Section with a High Wing, R. D. Andrews, pp. 903-906 (Nov.).
Maximum Lift on Slender Wings, D. W. Bridson and G. J. Hancock, pp. 671-672 (Aug.).
On the Rolling Up of a Trailing Vortex Sheet, G. J. Hancock, pp. 749-752 (Sept.).
Shock Patterns for Simple Caret Wings, J. Venn and J. W. Flower, pp. 339-348 (April) **S.**
Shock Tunnel Operation with an Expansive Area Change at the Main Diaphragm, M. M. Gore and J. Stalker, pp. 149-152 (Feb.).
Some Correlations for the Turbulent Boundary Layer on a Flat Plate, P. D. Chappell, pp. 393-396 (May).
Some Objectives and Problems Associated with Model Testing, I. A. Simons, pp. 539-548 (July).
The Stability of a Wind Tunnel Model on Flexible Supports, W. G. Molyneux, pp. 399-407 (May).
On the Tailoring Conditions in a Combustion-Driven Shock Tube, P. G. Simpkins, pp. 507-509 (June).
Thrust Measurement in Flight: The Requirements, Current Situation and Future Possibilities, A. A. Woodfield, pp. 314-321 (April).
Von Karman Wake, p. 24 (Jan.).
Vortex shedding, p. 25 (Jan.).

AEROELASTICITY
Flutter of Skew Panels by the Matrix Displacement Approach, Dr. Kariappa and B. M. Somashekar, pp. 672-675 (Aug.).
The Impact of the Digital Computer on Engineering Sciences, p. 39 (Jan.).
A Non-Linear Solution to a Tab-Aileron Flutter Problem, D. L. Birdsall, pp. 509-512 (June).
The Stability of a Wind Tunnel Model on Flexible Supports, W. G. Molyneux, pp. 399-407 (May).

AEROFOILS
High Lift-Drag Ratio Double Wedges of Given Volume which Support Two-Dimensional Supersonic Flow Fields, R. S. Bartlett, pp. 159-161 (Feb.).
Joukowski, p. 19 (Jan.).
NACA 23012, p. 16 (Jan.).
Newman, p. 19 (Jan.).
Von Mises, p. 19 (Jan.).

"AEROSPACE"
p. 1 (Jan.). Reviews published in "Aerospace" during 1970, p. 987 (Dec.).

AGRICULTURAL AVIATION
The Developing Scene in British Light Aviation, D. Slinton, pp. 381-387 (May).

AIR CUSHION VEHICLES
The External Aerodynamics of Hovercraft, E. J. Andrews, pp. 472-482 (June).
Hovercraft, J. Bertin (Lecture Summary), p. 173 (Feb.).
French Marine Air Cushion Vehicles, J. Bertin, pp. 726-735 (Sept.).

AIR LAW
The Influence of Operational and Technical Factors on Air Transport Regulation, S. Wheatcroft (Lecture Summary), p. IX (March).
Protection of Work in Patents and Designs, W. E. P. Johnson, pp. 853-859 (Oct.) **S.**

AIR REGISTRATION BOARD
Airworthiness and the Air Registration Board, W. Tye, pp. 873-887 (Nov.).

AIR TRAFFIC CONTROL
Collision Avoidance Systems, G. L. Perry, pp. 814-816 (Oct.).
Instruments and Electronics in Aviation, S. de Ferranti, pp. 718-723 (Sept.).
Report on the 9th Annual Conference of the International Federation of Air Traffic Controllers' Associations (Correspondence), p. 577 (July).

AIR TRANSPORT
Air Safety and Insurance in the Light of the Edwards Report, H. Caplan, pp. 228-22[illegible] (March).
Aircraft Development and World Aviation Growth, J. E. Steiner, pp. 433-456 (June).
Airports and Transport Aircraft (Lecture Summaries), pp. XXXI-XXXII (Nov.).
Automatic Landing in BEA's Trident Operations—A Review of Effort and Achievement, K. G. Wilkinson, pp. 187-196 (March).
Brief General Survey of the Edwards Inquiry Report into Civil Air Transport, Prof. K. L. C. Legg, pp. 222-224 (March).
The British Aircraft Manufacturing Industry in the Light of the Edwards Report, D. R. Newman, pp. 231-232 (March).
Economic and Investment Opportunities of the Edwards Report, J. E. D. Williams, pp. 229-230 (March).
Economics of Propulsion Systems for Air Transport, Sir David Huddie, pp. 457-468 (June).
The Edwards Report and Civil Aviation in the 1970s, A. P. Ellison, pp. 483-495 (June).
Engine Development in an Operator's Market, J. L. Edwards, pp. 42-51 (Jan.).
ICAO—Its Origin and Development, A Personal View, Sir Frederick Tymms, pp. 269-279 (April).
The Independent Airlines, A. E. Bristow, pp. 630-635 (Aug.).
The Influence of Operational and Technical Factors on Air Transport Regulation, S. Wheatcroft (Lecture Summary), p. IX (March); (Lecture), pp. 623-629 (Aug.); Correspondence, G. D. Peacock, p. 806 (Oct.).
Licensing Aspects of the Edwards Report, P. Martin (Symposium), pp. 224-225 (March).
Passenger Seaplanes and Their Bases, R. A. Bell, pp. 703-717 (Sept.).
The Public Administration Aspects of the Edwards Report, Prof. D. H. N. Johnson, pp. 226-227 (March).
Some Aspects of Optimisation in the Design of Civil Transport Aircraft, M. O. Wilmer (Lecture Summary), p. XI (March).
Technical Development in Aviation, N. E. Rowe, pp. 695-702 (Sept.).
UK Air Service Development in the Light of the Edwards Report, H. C. Brilliant, pp. 230-231 (March).

AIR TRANSPORT GROUP REPRINTS
p. 622 (July) **S.**

AIRCRAFT
AH-56A compound helicopter (Illus.), p. 541 (July).
Avro D. (Illus.), p. 704 (Sept.).
Avro 698 Vulcan (Illus.), p. 352 (May); p. 359 (May); B Mk. 1 (Illus.), p. 361 (May); B Mk. 2 (Illus.), p. 363 (May).
Avro 707 (Illus.), p. 354 (May); 707A (Illus.), p. 356 (May); 707B (Illus.), p. 355 (May).
Automatic Landing in BEA's Trident Operations—A Review of Effort and Achievement, pp. 187-196 (March).
Baden-Powell Quadruplane (Illus.), p. 138 (Feb.).
BAC GOR 339 (Illus.), p. 446 (June).
BAC Concorde 001 (Illus.), p. 639 (Aug.); p. 641 (Aug.).
BAC Concorde 002 (Illus.), p. 636 (Aug.); p. 639 (Aug.); p. 642 (Aug.).
BAC/SUD Concorde hydraulics, p. 258 (March), **S.**
BAC Lightning hydraulics, p. 257 (March), **S.**
Bede III (Illus.), p. 386 (May).
Benoist flying boat (Illus.), p. 704 (Sept.).
Beriev Be-10 (Illus.), p. 710 (Sept.).
Bo-105 (Illus.), p. 683, 691 (Aug.), **S**; Bo-140 Project (Illus.), p 684 (Aug.), **S.**
Boeing 314 Clipper (Illus.), p. 708 (Sept.).
Boeing 707 (Illus.), p. 436 (June).
Boulton Paul, Bugle (Illus.), p. 789 (Oct.).
Overstrand (close up of turret in nose position), (Illus.), p. 793 (Oct.); Sidestrand prototype fitted with Townend ring, (Illus.), p 791 (Oct.); Sidestrand III, (Illus.), p. 791 (Oct.); P3 Bobolink, (Illus.), p. 788 (Oct.); P7 Bourges Mk. I, (Illus.), p. 788 (Oct.); P.8 Atlantic, civil version of the Bourges; (Illus.), p. 788 (Oct.); P.9. (Illus.), p. 789 (Oct.); P.10. (Illus.), p. 789 (Oct.); P.12. Bodmin, (Illus.), p. 789 (Oct.); P.15. (Illus.), p. 789 (Oct.); P.29. Sidestrand, (Illus.), p 790 (Oct.); P.64. Mail carrier, (Illus.), p. 791 (Oct.); P.71A. Boadicea, (Illus.), p. 791 (Oct.); P.75. Overstrand, (Illus.), p. 792 (Oct.); P.75. Overstrand, (Illus.), p. 792 (Oct.); P.82. Defiant, (Illus.), p. 783 (Oct.); P.108. Balliol, (Illus.), p. 794 (Oct.); P.111. (Illus.), p. 794 (Oct.).
Cierva C-30 (Illus.), p. 863 (Nov.).
The Concorde Flight Test Programme, E. H. Burgess, pp. 636-642 (Aug.).

Curtiss A-1, (Illus.), p. 704 (Sept.).
Curtiss NC-4, (Illus.), p. 704 (Sept.).
DH Gipsy Moth (Illus.), p. 721 (Sept.).
Dornier DoX (Illus.), p. 708 (Sept.).
Dornier Wal (Illus.), p. 708 (Sept.).
Grahame-White Charabanc (Illus.), p. 787 (Oct.).
Hafner AR II (Illus.), p. 862 (Nov.).
Hafner AR III, (Illus.), p. 863 (Nov.).
H.P. Halifax, (Illus.), p. 794 (Oct.).
Hawker Siddeley Harrier, (Illus.), p. 4 (Jan.).
HS Trident—hydraulics, p. 258 (March) S.
The History of the Avro Vulcan, S. D. Davies, pp. 350-364 (May).
John Neale's "Pup" (Illus.), p. 138 (Feb.).
K-10 Tushina (Illus.), p. 768 (Sept.) S.
Ka-15 (Illus.), p. 768 (Sept.) S.
Ka-18 (Illus.), p. 768 (Sept.) S.
Ka-22 (Illus.), p. 768 (Sept.) S.
Ka-26 (Illus.), p 768 (Sept.) S; p. 771 (Sept.) S.
Lockheed F104, Starfighter, p. 30 (Jan.).
Luton-Major (Illus.), p. 384 (May).
Martin M-130 (Illus.), p. 707 (Sept.).
Martin Mars (Illus.), p. 709 (Sept.).
Mi-1 (Illus.), p. 769 (Sept.) S.
Mi-2 (Illus.), p. 770 (Sept.) S.
Mi-4 (Illus.), p. 769 (Sept.) S.
Mi-6 (Illus.), p. 770 (Sept.) S.
Mi-8 (Illus.), p. 772 (Sept.) S.
Mi-10 (Illus.), p. 770 (Sept.) S.
Mi-10K (Illus.), p. 770 (Sept.) S.
Mitchell, Kittiwake, (Illus.), p. 386 (May).
The MRCA Project, B. O. Heath, pp. 444-456 (June).
Pilot Sprite (Illus.), p. 386 (May).
Phoenix S.31, Warren (Illus.), p. 385 (May).
Phoenix S.34 Majorette (Illus.), p. 384 (May).
Phoenix S.38 Saluki (Illus.), p. 384 (May).
Phoenix S.39 project study (Illus.), p. 393 (May).
Phoenix S.40 Afghan (Illus.), p. 385 (May).
Phoenix S.42 project study (Illus.), p. 385 (May).
Recent Progress in All-Weather Landing Techniques, R. M. P. McManus and D. Craig, pp. 365-372 (May).
R 101 (Illus.), p. 791 (Oct.).
Rotafix Project (Illus.), p. 685 (Aug.) S.
Saul Quadruplane (Illus.), p. 137 (Feb.).
Saunders-Roe Saro Princess (Illus.), p. 710 (Sept.).
Schleicher K14 self-launching sailplane with 28 hp motor (Illus.), p. 383 (May).
Serendipity, Dr. A. E. Russell, pp. 967-970 (Dec.).
Short C Class flying boat (Illus.), p. 707 (Sept.).
Short Calcutta (Illus.), p. 705 (Sept.).
Short Kent (Illus.), p. 706 (Sept.); p. 713 (Sept.).
Short-Mayo composite aircraft (Illus.), p. 708 (Sept.).
Short S.25 Sunderland (Illus.), p. 709 (Sept.).
Short S.45 Solent 3 "City of York" (Illus.), p. 709 (Sept.).
Sikorsky S.38 amphibian (Illus.), p. 706 (Sept.).
Sikorsky S.40 (Illus.), p. 706 (Sept.).
Sikorsky S.42 (Illus.), p. 706 (Sept.).
Sikorsky S-64 (Illus.), p. 106 (Feb.).
Sikorsky S-65 (Illus.), p. 107 (Feb.).
Slingsby Cadet, modified (Illus.), p. 383 (May).
SNIAS SA.330, Puma (Illus.), p. 105 (Feb.).
SNIAS SA.341, Gazelle (Illus.), p. 105 (Feb.).
Supermarine Sea Eagle (Illus.), p. 705 (Sept.).
VFW 614 (Illus.), p. 2 (Jan.).
Voisin Biplane (Illus.), p. 138 (Feb.).
Vought-Sikorsky VS-44A "Excalibur" (Illus.), p. 710 (Sept.).
Westland Sea King (Illus.), p. 541 (July); p. 861 (Nov.).
Westland Wessex Mk. 3 (Illus.), p. 653 (Aug.).
Westland Westminster (Illus.), p. 651 (Aug.).
The Wrights' Flyer (Illus.), p. 1 (Jan.).
Yak-24 (Illus.), p. 769 (Sept.) S.

AIRCRAFT INDUSTRY
The Civil Aircraft Industry, G. E. Knight (Lecture Summary), p. X (March).
Economic Aspects of International Collaboration, F. Roth (Lecture Summary), p. X (March).
The Economics of Military Aviation, H. Davies (Lecture Summary, p. X (March).
Market Research—An Economic Necessity, B. A. H. Botting (Lecture Summary), p. X (March).
Some Aspects of Optimisation in the Design of Civil Transport Aircraft, M. O. Wilmer (Lecture Summary), p. XI (March).
Systems Engineering at Minimum Cost—Some Thoughts of an Equipment Supplier, E. D. Keen (Lecture Summary), p. XI (March).

AIRPORTS—*See* Air Transport

AIRSHIPS
Dagenham Days, p. 140 (Feb.).
R 101 (Illus.), p. 791 (Oct.).

ALEXANDER, P. Y.
(Illus.), p. 136 (Feb.).

AIRWORTHINESS
Airworthiness and the ARB, W. Tye (Lecture Summary), p. XXII (Aug.); (Lecture), pp. 873-887 (Nov.).
The Developing Scene in British Light Aviation, D. Stinton, pp. 381-387 (May).
ICAO—Its Origin and Development. A Personal View. Sir Frederick Tymms, pp. 269-279 (April).

ANDREWS, E. J.
The External Aerodynamics of Hovercraft (Lecture), pp. 472-482 (June).

ANDREWS, R. D.
The Lift of a Slender Combination of a Fuselage of Rectangular Cross-Section with a High Wing, pp. 903-906 (Nov.).

ANNUAL GENERAL MEETING
p. 174 (Feb.); p. VII (March); p. XV (June).

ANNUAL REPORT OF THE COUNCIL, THE ONE HUNDRED AND FIFTH, 1969
pp. 280-303 (April).

ARGYRIS, J. H.
The Impact of the Digital Computer on Engineering Sciences. (12th Lanchester Memorial Lecture), Part I, pp. 13-41 (Jan.); Part 2, pp. 111-127 (Feb.).

ARMSTRONG, B. D. and MUSKER, G.
Training for Low Visibility Landings (Lecture Summary), p. XXII (Aug.).

ASHWOOD, P. F.
The Design and Development of a Large Supersonic Free-Jet Test Cell (Symposium), pp. 205-212 (March).

ASTRONAUTICS AND GUIDED FLIGHT SECTION REPRINTS
p. 104 (Jan.) S; p. 786 (Sept.) S.

AUGUSTINE, N. R. and YATES, R. M.
The Evolution of the US Tactical Missile Programme (Lecture), pp. 957-966 (Dec.).

AUTOMATIC LANDING
Recent Progress in All-Weather Landing Techniques, R. M. P. McManus and D. K. Craig, pp. 365-372 (May).

AUXILIARY POWER UNIT
The Development of Small Gas Turbines for Aircraft Auxiliary Power. C. H. Paul, pp. 797-805 (Oct.).

AVIONICS
Avionics, helicopter, p. 107 (Feb.).
Instruments and Electronics in Aviation, S. de Ferranti, pp. 718-723 (Sept.).

BADEN-POWELL, Major B. F. S.
(Illus.), p. 136 (Feb.).

BALMFORD, D. E. H.
Vibration Testing in Helicopters (Symposium), pp. 659-662 (Aug.).

BAMPTON, M. C. C.
Vibration Analysis. Formulations for Optimisation, p. 676 (Aug.).

BARRATT, G. R.
Spinning Trials (Correspondence), p. 172 (Feb.).

BARTLETT, R. S.
High Lift-Drag Ratio Double Wedges of Given Volume which Support Two-Dimensional Supersonic Flow Fields, pp. 159-161 (Feb.).

BAUER, H. F.
Non-Linear Response of a Simply-Supported Non-Homogenous Beam, pp. 666-670 (Aug.).

BEA
Recent Progress in All-Weather Landing Techniques. R. M. P. McManus and D. K. Craig, pp. 365-372 (May).

BEADSMOORE, E. J. and DAVIS, J. D.
A Military View of Flight Simulation (Lecture Summary) p. XX (Aug.).

BECKER, E.
Relaxation Effects in Gas Dynamics. Fifth Reynolds-Prandtl Lecture (Lecture Summary), p. VI (Feb.); (Lecture), pp. 736-748 (Sept.).

BEESLEY, L. R.
Discussion on the Elstub Report (Lecture Summary), p. XII (March).

BELL, R. A.
Passenger Seaplanes and Their Bases, pp. 703-717 (Sept.).

BELLM, R. H.
An Appraisal of Current Shortcomings in the Procurement and Commissioning Processes of Flight Simulators (Lecture Summary), p. XX (Aug.).

BENOY, M. B.
The Determination of Solar Heating, pp. 52-54 (Jan.).

BERTIN, J.
French Marine Air Cushion Vehicles (Lecture Summary), p. 173 (Feb.); (Lecture), pp. 726-735 (Sept.).

BIRDSALL, D. L.
A Non-Linear Solution to a Tab-Aileron Flutter Problem, pp. 508-512 (June).

BLERIOT, LOUIS, MEMORIAL LECTURE, 23rd
Instruments and Electronics in Aviation, S. de Ferranti, pp. 718-723 (Sept.).

BOAL, J. and HARTLEY, R. M.
Use of an Altitude Test Facility in Engine Development (Symposium), pp. 307-314 (April).

BOTTING, B. A. H.
Market Research—An Economic Necessity (Lecture Summary), p. X (March).

BOUNDARY-LAYERS
Boundary Layer Theory and Flow in a Streamwise Corner, M. Zamir, pp. 330-332 (April).
A Note on Stratford's Method, W. M. Lister, p. 595 (July).
Shock-Induced Laminar Boundary Layers, J. A. D. Ackroyd, pp. 908-911 (Nov.).
Some Correlations for the Turbulent Boundary Layer on a Flat Plate, P. D. Chappell, pp. 393-396 (May).
Vortex Structures in Turbulent Boundary Layers, J. A. Clark and E. Markland, pp. 243-244 (March).

BOYLE, SIR DERMOT
The Royal Air Force (Lecture) (Weybridge), pp. 948-955 (Dec.).

BRAMSON, M. L.
Report on the Whittle System of Aircraft Propulsion (Theoretical Stage)—October 1935, pp. 128-133 (Feb.).

BRIDLE, Capt. G. W.
Sea Dart (Symposium), pp. 69-75 (Jan.) **S.**

BRIDSON, D W. and HANCOCK, G. J.
Maximum Lift on Slender Wings, pp. 671-672 (Aug.).

BRILLIANT, H. C.
UK Air Service Development in the Light of the Edwards Report (Lecture), pp. 230-231 (March).

BRISTOW, A. E.
The Independent Airlines (Lecture), pp. 630-635 (Aug.).

BRITISH COMMONWEALTH LECTURE, 26th
Airworthiness and the Air Registration Board, W. Tye (Lecture Summary), p. XXII (Aug.); (Lecture), pp. 873-887 (Nov.).

BROOKS, P. W.
Management and Marketing in Large Enterprises, pp. 937-947 (Dec.).
William Sholto Douglas, Marshal of the RAF, 1st Baron Douglas of Kirtleside, GCB. MC. DFC, Hon. Companion RAeS, 23rd December 1893-29th October 1969, pp. 219-221 (March).

BROWN, D. L.
Direct Lift Control (Correspondence), p. 956 (Dec.).

BROWN, SIR VERNON
Flying and Accidents During and Between the Two Wars (Correspondence), p. 172 (Feb.).
Spinning Trials (Correspondence), p. 173 (Feb.).

BRYSON, CAPT. L. S., HEENAN, CAPT. F. E., and JOHNSON, CAPT. C. A.
Rotary Wings in the Royal Navy (Lecture Summary), p. XXXIV (Dec.).

BURGESS, E. H.
The Concorde Flight Test Programme (Lecture) (Glasgow), pp. 636-642 (Aug.).

BUSINESS AVIATION
The Developing Scene in British Light Aviation, D. Stinton, pp. 381-387 (May).

BUTLER, V. N.
Change in Membership Status (Correspondence), p. 578 (July).

CAMPBELL, E. I. and SEDGWICK, W. E.
The Control of Change—The Modification Problem, Design and Development Viewpoint, Military Aircraft (Lecture Summary), p. XXVII (Oct.).

CAPLAN, H.
Air Safety and Insurance in the Light of the Edwards Report (Lecture), pp. 228-229 (March).

CARNEGIE, W. and RAO, J. S.
Non-Linear Vibrations of Rotating Cantilever Beams, pp. 161-165 (Feb.).

CHADWICK MEMORIAL LECTURE, 14th
The History of the Avro Vulcan, S. D. Davies, pp. 350-364 (May).

CHAN, A. S. L. and FIRMIN, A.
The Analysis of Cooling Towers by the Matrix Finite Element Method, Part I, Small Displacements, pp. 826-835 (Oct.). Part II, Large Displacements, pp. 971-982 (Dec.).

CHAPPELL, P. D.
Some Correlations for the Turbulent Boundary Layer on a Flat Plate, pp. 393-396 (May).

CHEESEMAN, I. C.
The Noise of Rotorcraft and other VTOL Aircraft—A Review (Lecture Summary), p. XXXI (Nov.).

CHICHESTER-MILES, I. and ROMER, D. R. M.
The Impact of VTOL Aircraft on Airport Design and Development (Lecture Summary), p. XXXII (Nov.).

CHILDS, D.
Cost Control of Guided Weapon Development Programmes (Lecture Summary), p. XXVII (Oct.).

CHILDS, G. W. and STOTT, D.
The Orbital Transfer of TV Satellites by Ion Propulsion, pp. 925-934 (Nov.), **S.**

CIERVA MEMORIAL LECTURE, ELEVENTH
Sixty Years in Flying, I. I. Sikorsky (Lecture Summary), p. XXIV (Sept.).

CIRCULATION CONTROLLED LIFTING ROTOR
Experiments Towards a Circulation-Controlled Lifting Rotor, J. Dunham, Part I, Wind Tunnel Tests, pp. 91-103 (Jan.), **S**; Part II, A Model Rotor, pp. 175-186 (Feb.), **S.**

CLARK, J. A. and MARKLAND, E.
Vortex Structures in Turbulent Boundary Layers, pp. 243-244 (March).

CLEAVER, A. V.
Astronautics after Apollo (Lecture Summary), p. XXXIV (Dec.).

COLES, N.
International Co-operation in the Military Field (Lecture Summary), p. XIV (April).

COLLABORATION
Economic Aspects of International Collaboration, F. Roth (Lecture Summary), p. X (March).
International Co-operation in the Military Field, N. Coles (Lecture Summary), p. XIV (April).
Joint Venture and International Collaboration, L. G. Evans (Lecture Summary), p. XXVII (Oct.).
The MRCA Project, B. O. Heath, pp. 433-456 (June).

COMBAT
Helicopter Combat, p. 106 (Feb.).

COMPRESSIBLE FLOW
Shock Patterns for Simple Caret Wings, J. Venn and J. W. Flower, pp. 339-348 (April) **S.**

COMPUTERS
APT (Automatic Programming Tool), p. 119 (Feb.).
Computer-aided Design, p. 120 (Feb.).
The Everyday Contribution of Computers to Operation, P. Hermon (Lecture Summary), p. VI (Feb.).
The Future, p. 121 (Feb.).
The Impact of the Digital Computer on Engineering Sciences, J. H. Argyris, Part I, pp. 13-41 (Jan.); Part II, pp. 111-127 (Feb.).

CONCORDE
The Concorde Flight Test Programme, E. H. Burgess, pp. 636-642 (Aug.).

CONNOLLY, J. V.
Management Education for Engineers, pp. 1002-1008 (Dec.) **S.**

CONNOLLY, J V. and PACKMAN, R. J.
What Has Happened to Work Study? (Summary), p. VII (March).

CONTROL
Direct Lift Control, W. J. G. Pinsker, pp. 817-825 (Oct.).
Direct Lift Control, D. L. Brown (Correspondence), Reply by W. J. G. Pinsker, p. 956 (Dec.).

CORRESPONDENCE
Barratt, G. R., Spinning Trials, p. 172 (Feb.).
Brown, D. L., Direct Lift Control, p. 956 (Dec.).
Brown, Sir Vernon, Flying and Accidents During and Between the Two Wars, p. 172 (Feb.); Spinning Trials, p. 173 (Feb.).
Butler, V. N., Change in Membership Status, p. 578 (July).
Cox, J. L., Space Technology Benefits to Mankind, p. 806 (Oct.).

Project Economic Evaluation, P. A. Norman, pp. 613-621 (July), **S.**

EDMONSTON LOW, R. C.
Major A. R. Low, RAF, MA, FRAeS, 1878-1969, An Appreciation, pp. 337-338 (April).

EDDIE, G. C.
Space Technology Benefits to Mankind (Correspondence), p. 806 (Oct.).

EDWARDS, D. G.
The Bursting Pressure of Metal Diaphragms in Square Section Shock Tubes, pp. 57-58 (Jan.).

EDWARDS, J. L.
Engine Development in an Operator's Market (Lecture) (Bristol), pp. 42-51 (Jan.).

EDWARDS REPORT
The Edwards Report and Civil Aviation in the 1970s, A. P. Ellison, pp. 483-495 (June).
Is There a Future for British Air Transport? (Symposium), pp. 222-236 (March).

ELECTRICAL POWER
Space Power and the Solar Cell, F. C. Treble, pp. 995-1001 (Dec.) **S.**

ELLISON, A. P.
The Edwards Report and Civil Aviation in the 1970s, pp. 483-495 (June).

ELSTUB REPORT
Discussion on the Elstub Report (Lecture Summary), p. XII (March).

ENGINES—*See* Propulsion Systems

EUROPEAN CO-OPERATION
The Jaguar and its Test Progress, J. L. Dell (Lecture Summary), p. XIV (April).

EVANS, F. G.
The Slug, an Erstwhile Unit of Mass (Correspondence), p. 956 (Dec.).

EVANS, L. G.
Joint Venture and International Collaboration (Lecture Summary), p. XXVII (Oct.).

FARNBOROUGH 1970
Exhibitors (Aug.).

FARREN, SIR WILLIAM
An Appreciation, p. 898 (Nov.).

FATIGUE
Cumulative Damage Problems in Aircraft Structures and Materials, J. Schijve, pp. 517-532 (June), **S.**
Structural Testing, Testing Philosophy and Loads Prediction for Rotary Wing Vehicle Components, L. C. Cowgill, pp. 559-572 (July).

FELTHAM, R. G.
The Role of Flight Recording in Aircraft Accident Investigation and Accident Prevention, pp. 573-576 (July).

de FERRANTI, S.
Instruments and Electronics in Aviation, 23rd Louis Bleriot Memorial Lecture, pp. 718-723 (Sept.).

FIRMIN, A. and CHAN, A. S. L.
The Analysis of Cooling Towers by the Matrix Finite Element Method Part I, Small Displacements, pp. 826-835 (Oct.); Part II, Large Displacements, pp. 971-982 (Dec.).

FISHER, M. J. and MORFEY, C. L.
Shock-Wave Radiation from a Supersonic Ducted Rotor, pp. 579-585 (July).

FLANAGAN, R. C. and MODI, V. J.
Attitude Dynamics of a Gravity Orientated Satellite under the Influence of Solar Radiation Pressure, pp. 835-841 (Oct.).

FLIGHT RECORDING
Accident and Maintenance Recording for Civil Aircraft, N. O. Matthews, pp. 888-897 (Nov.).
The Role of Flight Recording in Aircraft Accident Investigation and Accident Prevention, R. G. Feltham, pp. 573-576 (July).

FLIGHT SYSTEMS
Recent Progress in All-Weather Landing Techniques, R. M. P. McManus and D. K. Craig, pp. 365-372 (May).

FLIGHT TESTING
The Concorde Flight Test Programme, E. H. Burgess, pp. 636-642 (Aug.).
The Jaguar and its Test Progress, J. L. Dell (Lecture Summary), p. XIV (April).

FLINTOFF, J. L.
The Ansty Noise Facility—Its Design, Instrumentation and Future Commitments (Lecture Summary), p. XXXI (Nov.).

FLOWER, J. W.
A Circulation Meter, pp. 396-398 (May).
The Venting of Multicell Structures, pp. 241-243 (March).

FLOWER, J. W. and VENN, J.
Shock Patterns for Simple Caret Wings, pp. 339-348 (April), **S.**

FLUID MECHANICS
Calculation of the Flow Field Downstream of the Fan Nozzle of a Turbofan Aero Engine, P. G. Street, pp. 983-987 (Dec.).

FRANCE
French Marine Air-Cushion Vehicles, J. Bertin, pp. 726-735 (Sept.).

FRANKLIN, I. V.
Structural Design and Thermal Control (Symposium), pp. 921-925 (Nov.), **S.**

FRANKS, P. R.
The Management Organisation of the Martel Project (Symposium), pp. 81-84 (Jan.), **S.**

FREE, F. W.
Russian Helicopters (Lecture Summary), p. VI (Feb.); (Lecture), pp. 767-785 (Sept.), **S.**

GAS DYNAMICS
Calculation of Equilibrium Composition and Temperature of a Premixed Flame, K. Prasad, pp. 757-759 (Sept.).
Relaxation Effects in Gas Dynamics, Prof. E. Becker (Lecture Summary), p. VI (Feb.); (Lecture), pp. 736-748 (Sept.).

GELLATLY, W. R.
Current and Future Rotary Wing Development (Lecture Summary), p. IX (March).

GERMANY
Review of Bölkow Activities in the Rotorcraft Field, K. Pfleiderer, pp. 681-693 (Aug.), **S.**

GILCHRIST, A., LEE, C. K. and NEILSON, J. H.
Secondary Gas Injection into Rocket Nozzles through Ports Mutually at Right Angles, pp. 899-902 (Nov.).

GLENNY, R. J. E.
Recent Developments in Engine Materials (Lecture Summary) (Merthyr and Treforest), p. IX (March).

GLIDING
The Developing Scene in British Light Aviation, D. Stinton, pp. 381-387 (May).

GOODIER, J.
Tools for the Flight Simulator Instructor (Lecture Summary), p. XXI (Aug.).

GORE, M. M. and STALKER, R. J.
Shock Tunnel Operation with an Expansive Area Change at the Main Diaphragm, pp. 149-152 (Feb.).

GREEN, O. I.
Aircraft Noise in the Airport Environment (Lecture Summary), p. XXXII (Nov.).

GUIDED WEAPONS
Cost Control of Guided Weapon Development Programmes, D. Childs (Lecture Summary), p. XXVII (Oct.).
The Evolution of the US Tactical Missile Programme, N. R. Augustine and R. M. Yates, pp. 957-966 (Dec.).
Joint Venture and International Collaboration, L. G. Evans (Lecture Summary), p. XXVII (Oct.).
Management Techniques of Guided Weapon Development (Symposium), pp. 69-90 (Jan.), **S.**
Rapier, S. C. Dunn, pp. 847-852 (Oct.), **S.**

GULLAND, J.
Military Aircraft Market Research (Symposium), pp. 603-607 (July), **S.**

GUSTS
A Comparative Study of Aircraft Gust Analysis Procedures, R. A. Cox, pp. 807-813 (Oct.).

HAGGENMACHER, G. W., ROBINSON, J. and WILLIAMS, R.
Elastic and Equilibrium Matrices of General Semi-Monocoque Membrane Elements, pp. 502-506 (June).

HAINES, P. C.
Air Traffic Control Problems in Relation to Aircraft Development and Airport Locations in S.E. England (Lecture Summary), p. XXXI (Nov.).

HALFORD MEMORIAL LECTURE, TENTH
The Development of Small Gas Turbines for Aircraft Auxiliary Power, C. H. Paul (Lecture Summary) (Hatfield), p. VI (Feb.); (Lecture), pp. 797-805 (Oct.).

HANCOCK, G. J.
On the Rolling Up of a Trailing Vortex Sheet, pp. 749-752 (Sept.).

HANCOCK, G. J. and BRIDSON, D. W.
Maximum Lift on Slender Wings, pp. 671-672 (Aug.).

HARDY, D. M.
Project Management—A Science, An Art or An Organisation Problem, pp. 469-471 (June).

HARTLEY, R. M. and BOAL, J.
Use of an Altitude Test Facility in Engine Development (Symposium), pp. 307-314 (April).

HARVEY, R. A.
A Probabilistic Approach to Aeronautical Research and Development, pp. 373-380 (May).

HEATH, B. O.
The MRCA Project (Lecture), pp. 444-456 (June).

HEATHCOTE, R. M.
The Control of Change—The Modification Problem, Design and Development Viewpoint: Engine Modifications (Lecture Summary), p. XXVII (Oct.).

HEENAN, CAPT. F. E., JOHNSON, CAPT. C. A. and BRYSON, CAPT. L. S.
Rotary Wings in the Royal Navy (Lecture Summary), p. XXXIV (Dec.).

HENSEL, R. W. and PINDZOLA, M.
Air Breathing Engine Testing in the Propulsion Wind Tunnel Facility of the Arnold Engineering Development Center (Symposium), pp. 197-205 (March).

HERMON, P. M. R.
The Everyday Contribution of Computers to Airline Operation (Lecture Summary), p. VI (Feb.).

HIJACKING
Hijacking—Why Governments Must Act, pp. 143-145 (Feb.).
Hijacking—Why Governments Must Act, E. McCluskey (Correspondence), p. 245 (March).

HISTORICAL GROUP REPRINTS
p. 268 (March), **S**; p. 860 (Oct.), **S.**

HISTORY
Dagenham Days. A History of the Aeronautical Society's Flying Ground, P. Jarrett, pp. 134-142 (Feb.); (Correspondence), p. 389 (May).
The Far East Flight of the Southampton Flying Boats, 1927-1928, Gp. Cap. G. E. Livock (Lecture Summary), p. XXVII (Oct.).

Rotary Wings in the Royal Navy (Lecture Summary), p. XXXIV (Dec.).

JOHNSON, Prof. D. H. N.
The Public Administration Aspect of the Edwards' Report (Lecture), pp. 226-227 (March).

JOHNSON, W. E. P.
Protection of Work in Patents and Designs (Lecture Summary), p. III (Jan.); (Lecture), pp. 853-859 (Oct.) **S.**

JOHNSON, Capt. W. J.
Desirable Improvements in Future Airline Flight Simulators and Associated Training Equipment (Lecture Summary), p. XX (Aug.).

JONES, J. P.
The Helicopter Rotor, Thirteenth Lanchester Memorial Lecture, pp. 861-872 (Nov.).

KALMBACH, C. F and STEPNIEWSKI, W. Z.
Multivariable Search and its Application to Aircraft Design Optimisation, pp. 419-432 (May).

KARIAPPA and SOMASHEKAR, B. R.
Flutter of Skew Panels by the Matrix Displacement Approach, pp. 672-675 (Aug.).

KEEN, E. D.
Systems Engineering at Minimum Cost—Some Thoughts of an Equipment Supplier (Lecture Summary), p. XI (March).

KEIL, H. and SRIDHAR, K.
Effects of Rotation on a Turbulent Jet Flow over a Cylinder, pp. 407-410 (May).

KENNEDY, J. B.
On the Deformation of Parallelogrammic Sandwich Panels, pp. 496-501 (June).

KING, G. E.
Project Management Techniques of Rapier (Symposium), pp. 75-81 (Jan.) **S.**

KINGS NORTON, LORD
The Pictures of the Three Favorite Aerial Travellers, pp. 304-306 (April).

KINGSFORD-SMITH, SIR CHARLES, MEMORIAL LECTURE
Aircraft Development and World Aviation Growth, J. E. Steiner, pp. 433-443 (June).

KITES
The Terminal Forces Acting on a Light Trailing Wire, P. R. Payne, pp. 759-761 (Sept.).

KNIGHT, G. E.
The Civil Aircraft Industry (Lecture Summary), p. X (March).

LANCHESTER MEMORIAL LECTURE, TWELFTH
The Impact of the Digital Computer on Engineering Sciences, J. H. Argyris, Part I, pp. 13-41 (Jan.); Part 2, pp. 111-127 (Feb.).

LANCHESTER MEMORIAL LECTURE, THIRTEENTH
The Helicopter Rotor, Dr. J. P. Jones, pp. 861-872 (Nov.).

LANDING AND TAKE-OFF
Automatic Landing in BEA's Trident Operations—A Review of Effort and Achievement, K. G. Wilkinson, pp. 187-196 (March).

LEACH, Flt. Lt. R. E.
Aviation Archaeology (Lecture Summary), p. XXIV (Sept.).

LECTURES, DISCUSSIONS AND SYMPOSIA (for lists of Contributors to discussions, *see* Discussions)

MAIN SOCIETY
See also, Bleriot, British Commonwealth, Lanchester, Reynolds-Prandtl, Wilbur and Orville Wright.
The Advanced Passenger Train, A. H. Wickens (Lecture Summary) (Loughborough), p. XXXIV (Dec.).
Altitude Testing of Turbojet Engines, R. W. Hensel and M. Pindzola; P. F. Ashwood; D. D. Williams and D. P. Morriss, pp. 197-218 (March); R. M. Hartley and J. Boal; A. A. Woodfield, pp. 305-324 (April).
Discussion on the Elstub Report (Lecture Summary), p. XII (March).
Economics of Propulsion Systems for Air Transport, Sir David Huddle (Lecture Summary) (Dublin), p. III (Jan.); (Lecture), pp. 457-468 (June).
Hovercraft, J. Bertin (Lecture Summary) (Isle of Wight), p. 173 (Feb.); (Lecture), pp. 726-735 (Sept.).
Two-day Convention on Economic Factors in Aviation:
(i) The Civil Aircraft Industry, G. E. Knight (Lecture Summary), p. X (March).
(ii) Market Research—An Economic Necessity, B. A. H. Botting (Lecture Summary), p. X (March).
(iii) The Economics of Military Aviation, H. Davies (Lecture Summary), p. X (March).
(iv) Economic Aspects of International Collaboration, F. Roth (Lecture Summary), p. X (March).
(v) Some Aspects of Optimisation in the Design of Civil Transport Aircraft, M. O. Wilmer (Lecture Summary), p. XI (March).
(vi) The Influences of the Designer and the Operator on Total Aircraft Operating Costs, E. R. Major and A. J. Troughton (Lecture Summary), p. XI (March).
(vii) Systems Engineering at Minimum Cost—Some Thoughts of an Equipment Supplier, E. D. Keen (Lecture Summary), p. XI (March).
(viii) Design and Cost Considerations of Large Subsonic Transport Engines, D. J. Pickerell and T. D. Sills (Lecture Summary), p. XII (March).
(ix) The Impact of Research and Development Programmes in Various Technical Areas on the Economics of Future Aircraft Design, Sir Morien Morgan, p. XII (March).
(x) International Co-Operation in the Military Field, N. Coles (Lecture Summary), p. XIV (April).
Two-day Symposium on Flight Training Simulators for the 70s:
(i) Desirable Improvements in Future Airline Flight Simulators and Associated Training Equipment Capt. W. J. Johnson (Lecture Summary), p. XX (Aug.).
(ii) A Military View of Flight Simulation, Sqn. Ldr. J. D. Davis and Lt. Cdr. E. J. Beadsmoore (Lecture Summary), p. XX (Aug.).
(iii) An Appraisal of Current Shortcomings in the Procurement and Commissioning Processes of Flight Simulators, R. H. Bellm (Lecture Summary), p. XX (Aug.).
(iv) The Next Generation of Visual Systems, D. R. Tait (Lecture Summary), p. XX-XXI (Aug.).
(v) Advances in Motion Platform Systems, D. Wilson (Lecture Summary), p. XXI (Aug.).
(vi) Tools for the Flight Simulator Instructor, J. Goodier (Lecture Summary), p. XXI (Aug.).
(vii) Behavioural Factors Influencing Aircrew Response in Training and Research Flight Simulators, Dr. H. F. Huddleston and Dr. J. M. Rolfe (Lecture Summary), p XXI (Aug.).
(viii) Relative Importance of Physiological and Visual Factors in Providing Realism in Flight Simulation, N. O. Matthews (Lecture Summary), p. XXI (Aug.).
(ix) Pilot Performance Monitoring and Recording in Flight Simulators, H. D. Ruben (Lecture Summary), p. XXI (Aug.).
(x) Training for Low Visibility Landings, B. D. Armstrong and G. Musker (Lecture Summary), p. XXII (Aug.).
(xi) The Economics of the Ultimate Simulator, J. Nicholl (Lecture Summary), p. XXII (Aug.).

Air Law Group
Hijacking—Why Governments Must Act, pp. 143-145 (Feb.).
ICAO—Its Origin and Development A Personal View, Sir Frederick Tymms, pp. 269-279 (April).
The Influence of Operational and Technical Factors on Air Transport Regulation, S. Wheatcroft (Lecture Summary), p. IX (March); (Lecture), pp. 623-629 (Aug.).
Is There a Future for British Air Transport? A Discussion on the Edwards Report, Prof. K. Legg, P. Martin; Prof. D. H. N. Johnson; H. Caplan; J. E. D. Williams; H. C. Brilliant; and D. R. Newman, pp. 222-236 (March).
Protection of Work in Patents and Designs, W. E. P. Johnson (Lecture Summary), p. III (Jan.); (Lecture), pp. 853-859 (Oct.), **S.**

Air Transport Group
Airports and Air Transport Growth, A. H. Stratford (Lecture Summary), p. III (Jan.).
Airports and Transport Aircraft—Inter-Relations and Interface Problems, E. B. Tutty, P. C. Haines, R. A. Read, P. M. Davey, O. I. Green, J. C. Leslie, I. Chichester-Miles and D. R. M. Romer, J. M. Quick and P. R. G. Williams (Lecture Summaries), pp. XXXI-XXXII (Nov.).
The Everyday Contribution of Computers to Airline Operation, P. Hermon (Lecture Summary), p. VI (Feb.).
List of Reprints, p. 622 (July), **S.**
Recent Progress in All-Weather Landing Techniques, R. M. P. McManus and D. K. Craig, pp. 365-372 (May).
Is There a Future for British Air Transport? A Discussion on the Edwards Report, Prof. K. Legg; P. Martin; Prof. D. H. N. Johnson; H. Caplan; J. E. D. Williams; H. C. Brilliant and D. R. Newman, pp. 222-236 (March).

Astronautics and Guided Flight Section
Cost Effectiveness of GW Systems: Cost Control of Guided Weapon Development Programmes; D. Childs; Join Venture and International Collaboration, L. G. Evans (Lecture Summaries), pp. XXVII (Oct.).
The Evolution of the US Tactical Missile Programme, N. R. Augustine and R. M. Yates, pp. 957-966 (Dec.).
List of Astronautics and Guided Flight Section Reprints, p. 104 (Jan.), **S**; p 796 (Sept.) **S.**
Management Techniques of Guided Weapon Development (Symposium): G. W. Bridle, G. E. King, P. R. Franks and Rear-Admiral F. Dossor, pp. 69-90 (Jan.), **S.**
Operational Research in the Guided Weapons Field (Symposium Lecture Summaries), p. III (Jan.).
Space Power and the Solar Cell, F. C. Treble, pp. 995-1001 (Dec.) **S.**
Space Satellite and Launch Vehicle Technology. *(i)* Structural Design and Thermal Control, I. V. Franklin; *(ii)* The Orbital Transfer of TV Satellites by Ion Propulsion, G. W. Childs and D. Stott, pp. 921-934 (Nov.), **S.**

Branches
See also, Chadwick (Manchester), de Havilland (Hatfield), Halford (Hatfield), Mitchell (Southampton), North (Birmingham and Wolverhampton), Pierson (Weybridge), Tizard (Boscombe Down).
The Advanced Passenger Train, A. H. Wickens (Lecture Summary) (Loughborough), p. XXXIV (Dec.).
Aircraft Maintenance, J. W. Norberg (Lecture Summary) (Halton), p. XXIV (Sept.).
The Concorde Flight Test Programme (Glasgow), E. H. Burgess, pp. 636-642 (Aug.).
Direct Lift Control, W. J. G. Pinsker (Bedford), pp. 817-825 (Oct.).
Economics of Propulsion Systems for Air Transport, Sir David Huddle (Lecture Summary) (Dublin), p. III (Jan.); (Lecture), pp. 457-468 (June).
Engine Development in an Operator's Market, J. L. Edwards (Bristol), pp. 42-51 (Jan.).
French Marine Air-Cushion Vehicles, J. Bertin (Lecture Summary) (Isle of Wight), p. 173 (Feb); (Lecture), pp. 726-735 (Sept.).
The MRCA Project, B. O. Heath (Preston), pp. 444-456 (June).
Recent Developments in Engine Materials, R. J. E. Glenny (Lecture Summary) (Merthyr and Treforest), p. IX (March).
Recent Progress in All-Weather Landing Techniques, R. M. P. McManus and D. K. Craig (Southampton), pp. 365-372 (May).

Divisions
Aircraft Development and World Aviation Growth, J. E. Steiner (Australian Division), pp. 433-443 (June).

Graduates' and Students' Section
The Independent Airlines, A. E. Bristow, pp. 630-635 (Aug.).

Historical Group
Aviation Archaeology, Flt. Lt. R. E. Leach (Lecture Summary), p. XXIV (Sept.).
The Far East Flight of the Southampton Flying Boats 1927-1928, Gp. Capt. G. E. Livock (Lecture Summary), p. XXVII (Oct.).
List of Historical Group Reprints, p. 268 (March), S; p. 860 (Oct.). S.
Serendipity, Dr. A. E. Russell, pp. 967-970 (Dec.).
Sidelights on Early Farnborough Aviation History, P. B. Walker (Lecture Summary), p. IX (March).

Management Studies Group
The Control of Change.—The Modification Problem: Design and Development Viewpoint; Military Aircraft, W. E. Sedgwick and E. I. Campbell; Engine Modifications, R. M. Heathcote (Lecture Summaries), p. XXVII (Oct.).
List of Reprints, p. 622 (July), S.
Management of Design, B. T. Turner, pp. 935-936 (Nov.), S.
Management Education for Engineers, J. V. Connolly, pp. 1002-1008 (Dec.) S.
The Military Aircraft Users Viewpoint, A. A. Morris (Lecture Summary), p. XXX (Nov.).
A New Approach to Leadership, Dr. J. E. Adair (Lecture Summary), p. VI (Feb.).
Project Management—A Science, An Art or An Organisation Problem, D. M. Hardy, pp. 469-471 (June).
What Has Happened to Work Study? R. J. Packman and J. V. Connolly (Summary), p. VII (March).
Value for Money (Symposium), J. Gulland, P. A. Norman and L. W. Crum, pp. 603-617 (July), S.

Man-Powered Aircraft Group
Man-Powered Aircraft Group Essay Competition, p. XII (March).

Rotorcraft Section
The External Aerodynamics of Hovercraft, E. J. Andrews, pp. 472-482 (June).
The Helicopter Today and Tomorrow, S. I. Sikorsky, pp. 105-110 (Feb.).
List of Reprints, p. 694 (Aug.), S.
Noise. *(i)* The Noise of Rotorcraft and other VTOL Aircraft—A Review, I. C. Cheeseman; *(ii)* The Ansty Noise Facility, Its Design, Instrumentation and Future Commitments, J. L. Flintoff; *(iii)* The Sound of Rotorcraft, J. W. Leverton (Lecture Summaries), p. XXXI (Nov.).
Review of Bölkow Activities in the Rotorcraft Field, K. Pfleiderer (Lecture Summary), p. VI (Feb.); (Lecture), pp. 681-693 (Aug.), S.
Rotary Wings in the Royal Navy, Capt. L. S. Bryson, Capt. F. E. Heenan and Capt. C. A. Johnson (Lecture Summary), p. XXXIV (Dec.).
Russian Helicopters, F. W. Free (Lecture Summary), p. VI (Feb.); (Lecture), pp. 767-785 (Sept.), S.
Test Facilities for Helicopters (Symposium), I. A. Simons, M. C. G. Smith, L. C. Cowgill, D. Howe, C. E. P. Jackson and D. E. H. Balmford, pp. 539-572 (July), pp. 643-665 (Aug.).

Specialist
Ultra-High Tensile Steel Landing Gear; Material Selection and Manufacture, W. M. Imrie (Lecture Summary), p. XXIV (Sept.).

Test Pilots' Group
Current and Future Rotary Wing Development, Sqn. Ldr. W. R. Gellatly (Lecture Summary), p. IX (March).
The Developing Scene in British Light Aviation, D. Stinton, pp. 381-387 (May).
The Jaguar and Its Test Progress, J. L. Dell (Lecture Summary), p. XIV (April).
List of Test Pilots' Group Reprints, p. 268 (March), S; p. 860 (Oct.) S.
One-Day Symposium, p. XII (March).
Space Dynamics, Sqn. Ldr. A. R. McQuillan (Lecture Summary), p. IX (March).

LEE, C. K., NEILSON, J. H. and GILCHRIST, A.
Secondary Gas Injection into Rocket Nozzles through Ports Mutually at Right Angles, pp. 899-902 (Nov.).

LEGG, Prof. Keith
Brief General Survey of the Edwards Inquiry Report into Civil Air Transport (Lecture), pp. 222-224 (March).

LESLIE, J. C.
Facilities Planning for International Air Cargo (Lecture Summary), p. XXXII (Nov.).

LEVERTON, J. W.
The Sound of Rotorcraft (Lecture Summary), p. XXXI (Nov.).

LICENSING
Licensing Aspects of the Edwards Report, P. Martin (Symposium), pp. 224-225 (March).

LIGHT AVIATION
The Developing Scene of British Light Aviation, D. Stinton, pp. 381-387 (May).

LIGHTBODY, A.
The Operational Assessment of Air and Sea Launched Guided Weapons (Lecture Summary), p. III (Jan.).

LISTER, W. M.
A Note on Stratford's Method, p. 595 (July).

LIVOCK, G. E.
The Far East Flight of the Southampton Flying Boats 1927-1928 (Lecture Summary), p. XXVII (Oct.).

LOADS
Structural Testing, Testing Philosophy and Loads Prediction for Rotary Wing Vehicle Components, L. C. Cowgill, pp. 559-572 (July).

LOCKWOOD TAYLOR, J.
Space Technology (Correspondence), p. 956 (Dec.).

LOW, MAJOR A. R.
An Appreciation, pp. 337-338 (April).

McCLUSKEY, E.
Hijacking—Why Governments Must Act (Correspondence), p. 245 (March).
Report on the 9th Annual Conference of the International Air Traffic Controllers' Associations held in Montreal, 11th-14th May 1970 (Correspondence), p. 577 (July).

McMANUS, R. M. P. and CRAIG, D. K.
Recent Progress in All-Weather Landing Techniques (Lecture), pp. 365-372 (May).

MACMILLAN, N.
Spinning Trials (Correspondence), p. 173 (Feb.).

McQUILLAN, A. R.
Space Dynamics (Lecture Summary), p. IX (March).

MAINTENANCE
Aircraft Maintenance, J. W. Norberg (Lecture Summary), p. XXIV (Sept.).
ICAO—Its Origin and Development. A Personal View, Sir Frederick Tymms, pp. 269-279 (April).

MAJOR, E. R. and TROUGHTON, A. J.
The Influence of the Designer and the Operator on Total Aircraft Operating Costs (Lecture Summary), p. XI (March).

MAN-POWERED AIRCRAFT
Man Powered Aircraft Group Essay Competition, p. XII (March).

MANAGEMENT
The Control of Change—the Modification Problem, W. E. Sedgwick and E. I. Campbell, R. M. Heathcote (Lecture Summaries), p. XXVII (Oct.).
Management of Design, B. T. Turner, pp. 935-936 (Nov.) S.
Management Education for Engineers, J. V. Connolly, pp. 1002-1008 (Dec.) S.
Management and Marketing in Large Enterprises, P. W. Brooks, pp. 937-947 (Dec.).
Management Techniques of Guided Weapon Development (Symposium), pp. 69-90 (Jan.) S.
Military Aircraft Market Research, Janet Gulland, pp. 603-607 (July) S.
Project Economic Evaluation, P. A. Norman, pp. 613-617 (July) S.
Project Management—A Science, An Art or An Organisation Problem, D. M. Hardy, pp. 469-471 (June).
A Probabilistic Approach to Aeronautical Research and Development, R. A. Harvey, pp. 373-380 (May).

MANAGEMENT STUDIES GROUP REPRINTS
p. 622 (July) S.

MANGLER, K. W. and SMITH, J. H. B.
Behaviour of the Vortex Sheet at the Trailing Edge of a Lifting Wing, pp. 906-908 (Nov.).

MARKET RESEARCH
Aircraft Development and World Aviation Growth, J. E. Steiner, pp. 433-443 (June).
French Marine Air-Cushion Vehicles, J. Bertin, pp. 726-735 (Sept.).
The Independent Airlines, A. E. Bristow, pp. 630-635 (Aug.).
Management and Marketing in Large Enterprises, P. W. Brooks, pp. 937-947 (Dec.).
Military Aircraft Market Research, Janet Gulland, pp. 603-607 (July) S.

MARKLAND, E. and CLARK, J. A.
Vortex Structures in Turbulent Boundary Layers, pp. 243-244 (March).

MARTEL PROJECT
International Co-Operation in the Military Feld, N. Coles (Lecture Summary), p. XIV (April).
Management Techniques of Guided Weapon Development, pp. 81-84 (Jan.) S.

MARTIN, P.
Licensing Aspects of the Edwards Report (Lecture), pp. 224-225 (March)

MATERIALS
Cumulative Damage Problems in Aircraft Structures and Materials, J. Schijve, pp. 517-532 (June) S.
New materials for helicopters, p. 108 (Feb.).
Recent Developments in Engine Materials, Dr. R. J. E. Glenny (Lecture Summary), p IX (March).
Ultra-High Tensile Steel Landing Gear; Material Selection and Manufacture (Lecture Summary), p. XXIV (Sept.).

MATHEMATICS
On the Extension of the Kantorovich Method, J. P. H. Webber, pp. 146-149 (Feb.).

MATHEMATICAL MODELS
Multivariable Search and Its Application to Aircraft Design Optimisation. W. Z. Stepniewski and C. F. Kalmbach Jr., pp. 419-432 (May) S.

MATRIX METHODS
The Analysis of Cooling Towers by the Matrix Finite Element Method, A. S. L. Chan and A. Firmin, Part I, Small Displacements, pp. 826-835 (Oct.); Part II, Large Displacements, pp. 971-982 (Dec.).
A Derivation Procedure for the Dynamic Flexibility Matrix of a Triangular Bending Element, J. Robinson, pp. 327-330 (April).
Elastic and Equilibrium Matrices of General Semi-Monocoque Membrane Elements, J. Robinson, R. Williams and G. W. Haggenmacher, pp. 502-506 (June).
Flutter of Skew Panels by the Matrix Displacement Approach, Dr. Kariappa and B. R. Somashekar, pp. 672-675 (Aug.).

MATTHEWS, N. O.
Accident and Maintenance Recording for Civil Aircraft, pp. 888-897 (Nov.).
Relative Importance of Physiological and Visual Factors in Providing Realism in Flight Simulation (Lecture Summary), p. XXI (Aug.).

MEASUREMENT
Thrust Measurement in Flight: The Requirements, Current Situation and Future Possibilities, A. A. Woodfield, pp. 314-321 (April).

MILITARY AVIATION
The Economics of Military Aviation, H. Davies (Lecture Summary), p. X (March).

MITCHELL MEMORIAL LECTURE, 17th
Astronautics after Apollo, A. V. Cleaver (Lecture Summary) (Southampton), p. XXXIV (Dec.).

MODI, V. J. and FLANAGAN, R. C.
Attitude Dynamics of a Gravity Orientated Satellite under the Influence of Solar Radiation Pressure, pp. 835-841 (Oct.).

MOLYNEUX, W. G.
The Stability of a Wind Tunnel Model on Flexible Supports, pp. 399-407 (May).

MORFEY, C. L. and FISHER, M. J.
Shock-Wave Radiation from a Supersonic Ducted Rotor, pp. 579-585 (July).

MORGAN, Air Cdre. J. R.
The President 1970-71, p. 349 (May).

MORGAN, Sir Morien
The Impact of Research and Development Programmes in Various Technical Areas on the Economies of Future Aircraft Design (Lecture Summary), p. XII (March).

MORRIS, A. A.
The Military Aircraft Users, Viewpoint (Lecture Summary), p. XXX (Nov.).

MORRISS, D. P. and WILLIAMS, D. D.
Free-Jet Testing of a Supersonic Engine/Intake Combination (Symposium), pp. 212-218 (March).

MRCA
International Co-Operation in the Military Feld, N. Coles (Lecture Summary), p. XIV (April).
The MRCA Project, B. O. Heath, pp. 444-456 (June).

MUSKER, G. and ARMSTRONG, B. D.
Training for Low Visibility Landings (Lecture Summary), XXII (Aug.).

NAVIGATION
ICAO—Its Origin and Development. A Personal View. Sir Frederick Tymms, pp. 269-279 (April).

NEILSON, J. H., GILCHRIST, A. and LEE, C. K.
Secondary Gas Injection into Rocket Nozzles Mutually at Right Angles, pp. 899-902 (Nov.).

NEUT, A. Van der
An Extension of the Validity of Beam Theory Beyond its Classical Bounds, pp. 752-756 (Sept.).

NEVILLE, A. W.
Interaction of Power Supply Systems and Digital Equipment in Aircraft, p. 806 (Oct.).

NEWMAN, D. R.
The British Aircraft Manufacturing Industry in the Light of the Edwards Report (Lecture), pp. 231-232 (March).

NICHOLL, J.
The Economics of the Ultimate Simulator (Lecture Summary), p. XXII (Aug.).

NOISE
Symposium on Noise. (*i*) The Noise of Rotorcraft and other VTOL Aircraft—A Review, I. C. Cheeseman; (*ii*) The Ansty Noise Facility —Its Design, Instrumentation and Future Commitments, J. L. Flintoft; (*iii*) The Sound of Rotorcraft, J. W. Leverton (Lecture Summaries), p. XXXI (Nov.).
Shock-Wave Radiation from a Supersonic Ducted Rotor, C. L. Morfey and M. J. Fisher, pp. 579-585 (July).

NON-LINEAR VIBRATION
Non-Linear Response of a Simply-Supported Non-Homogenous Beam. H. F. Bauer, pp. 666-670 (Aug.).

NON-DESTRUCTIVE TESTING
Correspondence, p. 173 (Feb.).

NORBERG, J. W.
Aircraft Maintenance (Lecture Summary), p. XXIV (Sept.).

NORMAN, P. A.
Project Economic Evaluation (Symposium), pp. 613-617 (July) **S.**

NORTH, J. D. MEMORIAL LECTURE, 2nd
Portrait of a Pioneer, J. D. North, 1893-1968, F. F. Crocombe (Birmingham and Wolverhampton), pp. 787-796 (Oct.).

OPERATING COSTS
The Edwards Report and Civil Aviation in the 1970s, A. P. Ellison, pp. 483-495 (June).
The Influences of the Designer and the Operator on Total Aircraft Operating Costs, E. R. Major and A. J. Troughton (Lecture Summary), p. XI (March).

PACKMAN, R. J. and CONNOLLY, J. V.
What Has Happened to Work Study? (Summary), p. VII (March).

PANKHURST, R. C.
The Slug, an Erstwhile Unit of Mass, p. 724-725 (Sept.); (Correspondence), p. 956 (Dec.).

PAUL, C. H.
The Development of Small Gas Turbines for Aircraft Auxiliary Power (Lecture Summary), (Hatfield), p. VI (Feb.); (Lecture), pp. 797-805 (Oct.).

PAYNE, P. R.
The Terminal Forces Acting on a Light Trailing Wire, pp. 759-761 (Sept.).

PEACOCK, G. D.
Engine Development in an Operator's Market. (Correspondence), p. 245 (March).
The Influence of Operational and Technical Factors on Air Transport Regulation. (Correspondence), p. 806 (Oct.).

PERRY, G. L.
Collision Avoidance Systems. (Lecture), pp. 814-816 (Oct.).

PERT
Management Techniques of Guided Weapon Development, p. 78 (Jan.) **S.**

PFLEIDERER, K.
Review of Bölkow Activities in the Rotorcraft Field. (Lecture Summary), p. VI (Feb.); (Lecture), pp. 681-693 (Aug.) **S.**

PICKERELL, D. J. and SILLS, T. D.
Design and Cost Considerations for Large Subsonic Transport Engines, (Lecture Summary), p. XII (March).

PIERSON, R. K., MEMORIAL LECTURE
The Royal Air Force, Sir Dermot Boyle, Weybridge, pp. 948-955 (Dec.).

PINDZOLA, M. and HENSEL, R. W.
Air Breathing Engine Testing in the Propulsion Wind Tunnel Facility of the Arnold Engineering Development Center, (Symposium), pp. 197-205 (March).

PINSKER, W. J. G.
Direct Lift Control, (Lecture), (Bedford), pp. 817-825 (Oct.); (Correspondence), p. 956 (Dec.).

PLANTEMA MEMORIAL LECTURE
Cumulative Damage Problems in Aircraft Structures and Materials, J. Schijve, pp. 517-532 (June) **S.**

POLARIS
Management Techniques of Guided Weapon Development, pp. 85-88 (Jan.) **S.**

PORTER, B. and WOODHEAD, M. A.
Synthesis of an Aircraft Roll-Stabilisation System: An Application of Inverse Optimal Control Theory, pp. 390-392 (May).

POWERPLANTS—*See* **Propulsion**

PRASAD, K.
Calculation of Equilibrium Composition and Temperature of a Premixed Flame, pp. 757-759 (Sept.).

THE PRESIDENT, 1970/71
p. 349 (May), A Message, p. XXV (Oct.).

PRESIDENT-ELECT
p. 174 (Feb.).

PRIVATE AVIATION
The Developing Scene in British Light Aviation, D. Stinton, pp. 381-387 (May).

PROPULSION
Calculation of Equilibrium Composition and Temperature of a Premixed Flame, K. Prasad, pp. 757-759 (Sept.).
Calculation of the Flow Field Downstream of the Fan Nozzle of a Turbofan Aero Engine, P. G. Street, pp. 983-987 (Dec.).
Design and Cost Considerations for Large Subsonic Transport Engines, D. J. Pickerell and T. D. Sills, (Lecture Summary), p. XII (March).
The Development of Small Gas Turbines for Aircraft Auxiliary Power, C. H. Paul (Lecture Summary), p. VI (Feb.); (Lecture), pp. 797-805 (Oct.).
Economics of Propulsion Systems for Air Transport, Sir David Huddie, pp. 457-468 (June).
Engine Development in an Operator's Market, J. L. Edwards, (Lecture), pp. 42-51 (Jan.).
Engine Development in an Operators' Market, G. D. Peacock (Correspondence), p. 245 (March).
The Engine Scene, S. G. Hooker, pp. 1-11 (Jan.).
60 hp ENV Engine (Illus.), p. 140 (Feb.).
Major A. R. Low—An Appreciation, pp. 337-338 (April).
An Improved Blade Root Design for Axial Flow Compressors (and Turbines), H. Shaw, pp. 589-594 (July).
M45H (Illus.), p. 2 (Jan.).
The Orbital Transfer of TV Satellites by Ion Propulsion, G. W. Childs and D. Stott, pp. 925-934 (Nov.) **S.**
Pegasus (Illus.), p. 4 (Jan.).
Report on the Whittle System of Aircraft Propulsion (Theoretical Stage)—October 1935, M. L. Bramson, pp. 128-133 (Feb.).
RB 162 (Illus.), p. 5 (Jan.).
RB 211 (Illus.), p. 3 (Jan.).
Secondary Gas Injection into Rocket Nozzles through Ports Mutually at Right Angles, J. H. Neilson, A. Gilchrist and C. K. Lee, pp. 899-902 (Nov.).
Shock-Wave Radiation from a Supersonic Ducted Rotor, C. L. Morfey and M. J. Fisher, pp. 579-585 (July).
Symposium on Altitude Testing of Turbojet Engines (*i*) Air-Breathing Engine Testing in the Propulsion Wind Tunnel Facility of the Arnold Engineering Development Center, (*ii*) The Design and Development of a Large Supersonic Free-Jet Test Cell, (*iii*) Free Jet Testing of a Supersonic Engine/Intake Combination, pp. 197-218 (March).
Thrust Measurement in Flight. The Requirements, Current Situation and Future Possibilities, A. A. Woodfield, pp. 314-321 (April).
Use of an Altitude Test Facility in Engine Development, R. M. Hartley and J. Boal, pp. 307-314 (April).

RADAR
Development of the Bendix/Air Equipment RDR-IDM Radar as an Approach Aid for Helicopters. R. J. van der Harten, pp. 618-621 (July) **S.**

RADOME DESIGN
Aero-Thermo Structural Optimisation in Radome Design, M. J. Wooldridge, pp. 237-240 (March).

RAO, J. S. and CARNEGIE, W.
Non-Linear Vibrations of Rotating Cantilever Beams, pp. 161-165 (Feb.).

RAO, K. P. and DAVIES, G. A. O.
Reinforced Circular Holes in Cylindrical Shells, pp. 153-155 (Feb.).
Reinforced Circular Holes in Cylindrical Shells: Stress Concentrations Due to Internal Pressure, pp. 911-914 (Nov.).

RAPIER
Management Techniques of Guided Weapon Development, pp. 75-81 (Jan.) **S.**
Rapier. S. C. Dunn, pp. 847-852 (Oct.) **S.**

READ, R. A.
The Economics of Airport Operation as Affected by Current Transport Aircraft Design Trends (Lecture Summary), p. XXXII (Nov.).

REIF, Z. F.
The Effect of Static Deflection on the Harmonic Resonance of a System with a Hardening Non-Linear Spring, pp. 59-62 (Jan.).

RELF, ERNEST FREDERICK
An Appreciation, pp. 388-389 (May); Correction, p. 495 (June).

RESEARCH & DEVELOPMENT
The Helicopter Rotor, J. P. Jones, pp. 861-872 (Nov.).
International Co-Operation in the Military Field, N. Coles (Lecture Summary), p. XIV (April).
Need for an International Aviation Index, A. H. Stratford (Correspondence), p. 956 (Dec.).

REYNOLDS-PRANDTL LECTURE, FIFTH
Relaxation Effects in Gas Dynamics, Prof. Dr. E. Becker (Lecture Summary), p. VI (Feb.); (Lecture), pp. 736-748 (Sept.).

ROBINSON, J.
A Derivation Procedure for the Dynamic Flexibility Matrix of a Triangular Bending Element, pp. 327-330 (April).

ROBINSON, J., WILLIAMS, R. and HAGGENMACHER, G. W.
Elastic and Equilibrium Matrices of General Semi-Monocoque Membrane Elements, pp. 502-506 (June).

ROLFE, Dr. J. M. and HUDDLESTON, Dr. H. F.
Behavioural Factors Influencing Aircrew Response in Training and Research Flight Simulators (Lecture Summary), p. XXI (Aug.).

ROMER, D. R. M. and CHICHESTER-MILES, I.
The Impact of VTOL Aircraft on Airport Design and Development (Lecture Summary), p. XXXII (Nov.).

ROTH, F.
Economic Aspects of International Collaboration (Lecture Summary), p. X (March).

ROTORCRAFT SECTION REPRINTS
p. 694 (Aug.), S.

ROTORCRAFT
Current and Future Rotary Wing Development, W. R. Gellatly (Lecture Summary), p. IX (March).
Development of the Bendix/Air Equipment RDR-IDM Radar as an Approach Aid for Helicopters, R. J. van der Harten, pp. 618-621 (July), S.
The Helicopter Rotor, J. P. Jones (Lecture), pp. 861-872 (Nov.).
The Helicopter Today and Tomorrow, S. I. Sikorsky, pp. 105-110 (Feb.).
The High-Speed Track Facility and its Comparison with other Full-Scale Testing Techniques, D. Howe, pp. 643-649 (Aug.).
Symposium on Noise. *(i)* The Noise of Rotorcraft and other VTOL Aircraft—A Review, I. C. Cheeseman; *(ii)* The Ansty Noise Facility—Its Design, Instrumentation and Future Commitments, J. W. Leverton (Lecture Summaries), p. XXXI (Nov.).
Review of Bölkow Activities in the Rotorcraft Field, K. Pfleiderer, pp. 681-693 (Aug.), S.
Rotary Wings in the Royal Navy, Capt. L. S. Bryson, Capt. F. E. Heenan and Capt. C. A. Johnson (Lecture Summary), p. XXXIV (Dec.).
Russian Helicopters, F. W. Free, pp. 767-785 (Sept.), S.
Some Objectives and Problems Associated with Model Testing, I. A. Simons, pp. 539-548 (July).
Structural Testing, Testing Philosophy and Loads Prediction for Rotary Wing Vehicle Components, pp. 559-572 (July).
Vibration Testing in Helicopters—A Practical Aspect, C. E. P. Jackson and D. E. H. Balmford, pp. 650-658 (Aug.).

ROWE, N.E.
Technical Development in Aviation (Lecture), pp. 695-702 (Sept.).
The Use of a Runway Vehicle for Testing Lifting Rotors in Simulated Forward Flow, M. C. G. Smith, pp. 548-559 (July).

ROWE, N. E. MEDAL
Collision Avoidance Systems, G. L. Perry (Lecture), pp. 814-816 (Oct.).
A Comparative Study of Aircraft Gust Analysis Procedures, R. A. Cox (Lecture), pp. 807-813 (Oct.).

ROYAL AERONAUTICAL SOCIETY
The Aeronautical Society of India, 23rd AGM, p. XIX, (Aug.).
Air Traffic, Navigation and the Community, The Nature and Solutions of Future Operational and Social Problems, p. VIII (March).
Annual General Meeting—14th May 1970, p. 174 (Feb.); p. VII (March); p XV (June).
Associate Fellowship Examination 1970, p. XXV (Oct.).
Autumn Bank Holiday, p. XIX (Aug.).
Changes of Address, p. XXXIV (Dec.).
Charter Flight to USA to visit Space Centers, p. XXX (Nov.).
Christmas Holidays, p. XXXIV (Dec.).
Conference on Atmospheric Turbulence, p. XXV (Oct.); p. XXX (Nov.).
Dagenham Days. A History of The Aeronautical Society's Flying Ground, P. Jarrett, pp. 134-142 (Feb.); (Correspondence), p. 389 (May).
Election of President-Elect and Vice-Presidents, p. XVII (July).
The European Register of Engineers Operated under FEANI, pp. XVII-XVIII (July).
General Meeting, 8th July 1970, p. XVI (June).
Handley Page Memorial Lecture, Eighth, p. VIII (March).
Increased Subscriptions, Report of the General Meeting of Voters held 8th July 1970, p. XIX (Aug.).
International Hovercraft Conference, 2nd, p. XXXIV (Dec.).
LECO '70, p. XIII (April).

Secretary's Newsletter, p. I (Jan.); p. XV (June).
Seventeenth Air Transport Course, p. XXIII (Sept.).
Sir Sydney Camm Memorial Fund, p. XXXIV (Dec.).
Society's Spring Convention, p. 174 (Feb.).
Special General Meeting and General Meeting, 21st May 1970. p. VII (March); Supper Club AGM, p. 174 (Feb.); p. VII (March); p. XV (June).
Symposium on Internal Flows, p. XIII (April).
Symposium on the Reduction of Noise, p. XXXIV (Dec.).
To the Moon and Beyond, p. XXX (Nov.).
Two-day Symposium on Flight Training Simulators for the '70s, p. XVII (July).
UKAC Control Convention, 4th, p. XXIV (Sept.).
Visit to the USA—1971, p. XIX (Aug.).

ROYAL AIR FORCE
The Royal Air Force, Sir Dermot Boyle, pp. 948-955 (Dec.).

RUBEN, H. D.
Pilot Performance Monitoring and Recording in Flight Simulators, (Lecture Summary), p. XXI (Aug.).

RUSSELL, A. E.
Serendipity (Lecture), pp. 967-970 (Dec.).

SAFETY
Accident and Maintenance Recording for Civil Aircraft, N. O. Matthews, pp. 888-897 (Nov.).
Airworthiness and the ARB, W. Tye (Lecture Summary), p. XXII (Aug.); (Lecture), pp. 873-887 (Nov.).
Air Safety and Insurance in the Light of the Edwards Report, H. Caplan, pp. 228-229 (March).
Collision Avoidance Systems, G. L. Perry, pp. 814-816 (Oct.).
Flying and Accidents During and Between the Two Wars (Correspondence), pp. 172-173 (Feb.).
Hijacking—Why Governments Must Act, pp. 143-145 (Feb.).

SALVAGE
Engine Development in an Operator's Market, p. 48 (Jan.).

SATELLITE DYNAMICS
Attitude Dynamics of a Gravity Orientated Satellite under the Influence of Solar Radiation Pressure, R. C. Flanagan and V. J. Modi, pp. 835-841 (Oct.).

SATELLITES
The Orbital Transfer of TV Satellites by Ion Propulsion, G. W. Childs and D. Stott, pp. 925-934 (Nov.), S.
Space Power and the Solar Cell, F. C. Treble, pp. 995-1001 (Dec.) S.
Structural Design and Thermal Control, I. V. Franklin, pp. 921-925 (Nov.), S.

SCHIJVE, J.
Cumulative Damage Problems in Aircraft Structures and Materials (Lecture), pp. 517-532 (June).

SCORER, R. S.
Flight in the Restless Atmosphere (Lecture Summary), p. XXXII (Nov.).

SEA DART
Management Techniques of Guided Weapon Development, pp. 69-75 (Jan.), S.

SEAPLANE BASES
Belfast Marine Airport (Illus.), p. 716 (Sept.).
Central Yacht Basin—St. Petersburg (Illus.), p. 711 (Sept.).
Cliffe Airport (Illus.), p. 712 (Sept.).
Idlewild (Kennedy) International Airport, proposed seaplane facilities (Illus.), p. 716 (Sept.).
Requirements for Wartime Flying Boat Base (Illus.), p. 713 (Sept.).
Southampton (Proposed) (Illus.), p. 715 (Sept.).
Typical Layout of British Wartime Flying Boat Base (Illus), p. 714 (Sept.).

SEDGWICK, W. E. and CAMPBELL, E. I.
The Control of Change—The Modification Problem, Design and Development Viewpoint, Military Aircraft (Lecture Summary), p. XXVII (Oct.).

SHAW, G. W.
Aerodynamic Characteristics of Thick Sharp-Edged Cropped Delta and Gothic Wings giving Low Lift-Dependent Drag, pp. 586-589 (July).

SHAW, H.
An Improved Blade Root Design for Axial Flow Compressors (and Turbines), pp. 589-594 (July).

SHOCK TUBES
The Bursting Pressure of Metal Diaphragms in Square Section Shock Tubes, D. G. Edwards, pp. 57-58 (Jan.).
Shock Tunnel Operation with an Expansive Area Change at the Main Diaphragm, M. M. Gore and J. Stalker, pp. 149-152 (Feb.).

SHOCK WAVES
Relaxation Effects in Gas Dynamics, E. Becker, pp. 736-748 (Sept.).
Shock-Induced Laminar Boundary Layers, J. A. D. Ackroyd, pp. 908-911 (Nov.).
Shock-Wave Radiation from a Supersonic Ducted Rotor, C. L. Morfey and M. J. Fisher, pp. 579-585 (July).
On the Tailoring Conditions in a Combustion Driven Shock Tube, P. G. Simpkins, pp. 507-509 (June).

SIKORSKY, I. I.
Sixty Years in Flying, Eleventh Cierva Memorial Lecture (Lecture Summary), p. XXIV (Sept.).

SIKORSKY, S. I.
The Helicopter—Today and Tomorrow (Lecture), pp. 105-110 (Feb.).

SILLS, T. D. and PICKERELL, D. J.
Design and Cost Considerations for Large Subsonic Transport Engines (Lecture Summary), p. XII (March).

SIMONS, I. A.
Some Objectives and Problems Associated with Model Testing (Symposium), pp. 539-548 (July).

SIMPKINS, P. G.
On the Tailoring Conditions in a Combustion Driven Shock Tube, pp. 507-509 (June).

S.I. UNITS
The Slug, An Erstwhile Unit of Mass, R. C. Pankhurst, pp. 724-725 (Sept.).
The Slug, an Erstwhile Unit of Mass, F. G. Evans (Correspondence), Reply by R. C. Pankhurst, p. 956 (Dec.).

SIMULATION
Flight Training Simulators for the 70s (Lecture Summaries), pp. XX-XXII (Aug.).

SLENDER BODIES
The Lift of a Slender Combination of a Fuselage of Rectangular Cross-Section with a High Wing, R. D. Andrews, pp. 903-906 (Nov.).

SMITH, J. H. B and MANGLER, K. W.
Behaviour of the Vortex Sheet at the Trailing Edge of a Lifting Wing, pp. 906-908 (Nov.).

SMITH, M. C. G.
The Use of a Runway Vehicle for Testing Lifting Rotors in Simulated Forward Flight, pp. 548-559 (July).

SOLAR HEATING
The Determination of Solar Heating, M. B. Benoy, pp. 52-54 (Jan.).

SOMASHEKAR, B. R. and KARIAPPA
Flutter of Skew Panels by the Matrix Displacement Approach, pp. 672-675 (Aug.).

SPACE
Apollo, p. 112 (Feb.).
Astronautics after Apollo, A. V. Cleaver (Lecture Summary), p. XXXIV (Dec.).
Attitude Dynamics of a Gravity Orientated Satellite under the Influence of Solar Radiation Pressure, R. C. Flanagan and V. J. Modi, pp. 835-841 (Oct.).
Flight Simulation Laboratory, p. 112 (Feb.).
Launch Vehicle and Sizing Analysis by Computer, p. 120 (Feb.).
Saturn Data Conditioning, p. 119 (Feb.).
Space Dynamics, A. R. McQuillan (Lecture Summary), p. IX (March).
Space Technology "Spin Off" Benefits to Mankind, D. A. Wiltshire, pp. 533-538 (July).
Space Technology Benefits to Mankind, G. C. Eddie (Correspondence), p. 806 (Oct.).
Space Technology Benefits to Mankind, J. L. Cox (Correspondence), p. 806 (Oct.)
Space Technology Benefits to Mankind, J. Lockwood Taylor (Correspondence), p. 956 (Dec.).

SPINNING TRIALS
Correspondence by O. Stewart, p. 245 (March).

SRIDHAR, K. and KEIL, H.
Effects of Rotation on a Turbulent Jet Flow over a Cylinder, pp. 407-410 (May).

STABILITY AND CONTROL
The Stability of a Wind Tunnel Model on Flexible Supports, W. G. Molyneux, pp. 399-407 (May).
Synthesis of an Aircraft Roll-Stabilisation System: An Application of Inverse Optimal Control Theory, B. Porter and M. A. Woodhead, pp. 390-392 (May).

STALKER, R. J. and GORE, M. M.
Shock Tunnel Operation with an Expansive Area Change at the Main Diaphragm, pp. 149-152 (Feb.).

STEINER, J. E.
Aircraft Development and World Aviation Group (Lecture), pp. 433-443 (June).

STEPNIEWSKI, W. Z. and KALMBACH, C. F.
Multivariable Search and Its Application to Aircraft Design Optimisation, pp. 419-432 (May).

STEWART, O.
Spinning Trials (Correspondence), p. 245 (March).

STINTON, D.
The Developing Scene in British Light Aviation (Lecture), pp. 381-387 (May).

STOL
Multivariable Search and Its Application to Aircraft Design Optimisation, W. Z. Stepniewski and C. F. Kalmbach, Jr., pp. 419-432 (May), S.

STOLLERY, J. L.
A Comparison Between Some Approximate and Exact Solutions of the Laminar Boundary-Layer Equations, pp. 55-56 (Jan.).

STOTT, G. W. and CHILDS, G. W.
The Orbital Transfer of TV Satellites by Ion Propulsion, pp. 925-934 (Nov.), S.

STRATFORD, A. H.
Airports and Air Transport Growth (Lecture Summary), p. III (Jan.).
Need for an International Aviation Index (Correspondence), p. 956 (Dec.).

STRATFORD, B. S.
A Note on Stratford's Method, W. M. Lister, p. 595 (July).

STRATTON, A.
The Aims and Methods of Operational Research on Weapons (Lecture Summary), p. III (Jan.).

STREET, P. G.
Calculation of the Flow Field Downstream of the Fan Nozzle of a Turbofan Aero Engine, pp. 983-987 (Dec.).

STRESS ANALYSIS
An Extension of the Validity of Beam Theory Beyond Its Classical Bounds, A. van der Neut, pp. 752-756 (Sept.).

STRUCTURAL ANALYSIS
A Derivation Procedure for the Dynamic Flexibility Matrix of a Triangular Bending Element, J. Robinson, pp. 327-330 (April).

STRUCTURES
The Analysis of Cooling Towers by the Matrix Finite Element Method, A. S. L. Chan and A. Firmin, Part I, Small Displacements, pp. 826-835 (Oct.); Part II, Large Displacements, pp. 971-982 (Dec.).
Cumulative Damage Problems in Aircraft Structures and Materials, J. Schijve, pp. 517-532 (June), S.
An Extension of the Validity of Beam Theory Beyond its Classical Bounds, A. van der Neut, pp. 752-756 (Sept.).
On the Deformation of Parallelogrammic Sandwich Panels, J. B. Kennedy, pp. 496-501 (June).
Elastic and Equilibrium Matrices of General Semi-Monocoque Membrane Elements, J. Robinson, R. Williams and G. W. Haggenmacher, pp. 502-506 (June).
Heat Transfer, p. 111 (Feb.).
Reinforced Circular Holes in Cylindrical Shells, K. P. Rao and G. A. O. Davies, pp. 153-155 (Feb.).
Reinforced Circular Holes in Cylindrical Shells, Stress Concentrations Due to Internal Pressure, K. P. Rao and G. A. O. Davies, pp. 911-914 (Nov.).
Structural Design and Thermal Control, I. V. Franklin, pp. 921-925 (Nov.), S.
Thermal Stresses in Rectangular Plates, p. 146 (Feb.).
Use of Computers, p. 120 (Feb.).
The Venting of Multicell Structures, J. W. Flower, pp. 241-243 (March).
Vibration Analysis Formulations for Optimisation, M. C. C. Bampton, p. 676 (Aug.).

SUPERSONIC FLOW
The Concorde Flight Test Programme, E. H. Burgess, pp. 636-642 (Aug.).
High Lift-Drag Ratio Double Wedges of Given Volume which Support Two Dimensional Supersonic Flow Fields, R. S. Bartlett, pp. 159-161 (Feb.).

SUPPER CLUB
AGM, p. 174 (Feb.).

SYSTEMS ENGINEERING
Systems Engineering at Minimum Cost—Some Thoughts of an Equipment Supplier, E. D. Keen (Lecture Summary), p. XI (March).

TAIT, D. R.
The Next Generation of Visual Systems, (Lecture Summary), p. XX (Aug.).

TEST FACILITIES
Cumulative Damage Problems in Aircraft Structures and Materials, J. Schijve, pp. 517-532 (June) S.
The External Aerodynamics of Hovercraft, E. J. Andrews, pp. 472-482 (June).
The High-Speed Track Facility and its Comparison with other Full-Scale Testing Techniques, D. Howe, pp. 643-649 (Aug.).
Some Objectives and Problems Associated with Model Testing, I. A. Simons, pp. 539-548 (July).
Structural Testing, Testing Philosophy and Loads Prediction for Rotary Wing Vehicle Components, L. C. Cowgill, pp. 559-572 (July).
Use of an Altitude Test Facility in Engine Development, R. M. Hartley and J. Boal, pp. 307-314 (April).
The Use of a Runway Vehicle for Testing Lifting Rotors in Simulated Forward Flight, M. C. G. Smith, pp. 548-559 (July).
Symposium on Altitude Testing of Turbojet Engines (1) Air-Breathing Engine Testing in the Propulsion Wind Tunnel Facility of the AEDC. (2) The Design and Development of a Large Supersonic Free-Jet Test Cell. (3) Free Jet Testing of a Supersonic Engine/Intake Combination, pp. 197-218 (March).
Vibration Testing in Helicopters, C. E. P. Jackson and D. E. H. Balmford, pp. 650-658 (Aug.).

TEST PILOTS
Major A. R. Low—An Appreciation, pp. 337-338 (April).

TEST PILOTS' GROUP REPRINTS
p. 268 (March) S; p. 860 (Oct.) S.

THERMODYNAMICS
Secondary Gas Injection into Rocket Nozzles through Ports Mutually at Right Angles, J. H. Neilson, A. Gilchrist and C. K. Lee, pp. 899-902 (Nov.).

THOMSON, K. D.
The Estimation of the Drag of Circular Cylinders at Subcritical Reynolds Numbers and Subsonic Speeds, pp. 762-763 (Sept.).

TIZARD, SIR HENRY, MEMORIAL LECTURE
Technical Development in Aviation, N. E. Rowe (Boscombe Down), pp. 695-702 (Sept.).

TRAILING WIRES
The Terminal Forces Acting on a Trailing Wire, P. R. Payne, pp. 759-761 (Sept.).

TRAINING
Flight Training Simulators for the '70s (Lecture Summaries), pp. XX-XXII (Aug.).
Management Education for Engineers, J. V. Connolly, pp. 1002-1008 (Dec.) S.

TREBLE, F. C.
Space Power and the Solar Cell (Symposium), pp. 995-1001 (Dec.) S.

TROUGHTON, A. J. and MAJOR, E. R.
The Influence of the Designer and the Operator on Total Aircraft Operating Costs (Lecture Summary), p. XI (March).

TURNER, B. T.
Management of Design, pp. 935-936 (Nov.) S.

TURNER, C. C.
(Illus.), p. 141 (Feb.).

TUTTY, E. B.
International Airport Planning as Influenced by Aircraft Development (Lecture Summary), p. XXXI (Nov).

TYE, W.
Airworthiness and the Air Registration Board. (26th British Commonwealth Lecture) (Lecture Summary), p. XXII (Aug.); (Lecture), pp. 873-887 (Nov.).

TYMMS, SIR FREDERICK
ICAO—Its Origin and Development—A Personal View (Lecture), pp. 269-279 (April).
Symposium on Facilitation (Correspondence), p. 172 (Feb.).

USA
The Evolution of the US Tactical Missile Programme, N. R. Augustine and R. M. Yates, pp. 957-966 (Dec.).

USSR
Helicopter developments, p. 107 (Feb.).
Russian Helicopters, F. W. Free, pp. 767-785 (Sept.) S.

VALUE ENGINEERING
Value Engineering—A Challenge to Management, L. W. Crum, pp. 608-613 (July) S.

VAN DER HARTEN, R. J.
Development of the Bendix/Air Equipment RDR-IDM Radar as an Approach Aid for Helicopters, pp. 618-621 (July) S.

VENN, J. and FLOWER, J. W.
Shock Patterns for Simple Caret Wings, pp. 339-348 (April) S.

VIBRATION
The Effect of Static Deflection on the Harmonic Resonance of a System with a Hardening Non-Linear Spring, Z. F. Reif, pp. 59-62 (Jan.).
Non-Linear Vibrations of Rotating Cantilever Beams, J. S. Rao and W. Carnegie, pp. 161-165 (Feb.).
The Stability of a Wind Tunnel Model on Flexible Supports, W. G. Molyneux, pp 399-407 (May).
Vibration Analysis Formulations for Optimisation, M. C. C. Bampton, p. 676 (Aug.).
Vibration Testing in Helicopters—A Practical Aspect. C. E. P. Jackson and D. E. H. Balmford, pp. 650-658 (Aug.).

VORTEX FLOW
Aerodynamic Characteristics of Thick Sharp-Edged Cropped Delta and Gothic Wings giving Low Lift Dependent Drag, G. W. Shaw, pp. 586-589 (July).
Behaviour of the Vortex Sheet at the Trailing Edge of a Lifting Wing, K. W. Mangler and J. H. B. Smith, pp. 906-908 (Nov.).
The Estimation of the Drag of Circular Cylinders at Subcritical Reynolds Numbers and Subsonic Speeds, K. D. Thomson, pp. 762-763 (Sept.).
Maximum Lift on Slender Wings, D. W. Bridson, and G. J. Hancock, pp. 671-672 (Aug.).
On the Rolling Up of a Trailing Vortex Sheet, G. J. Hancock, pp. 749-752 (Sept.).

VTOL
Experiments Towards a Circulation-Controlled Lifting Rotor, J. Dunham, Part I: Wind Tunnel Tests, pp. 91-103 (Jan.) S; Part II: A Model Rotor, pp. 175-186 (Feb.) S.

WALKER, P. B.
Sidelights on Early Farnborough Aviation History (Lecture Summary), p. IX (March).

WALSH, R. H.
An Investigation of the Effects of Working Pressure on Aircraft Hydraulic Systems, pp. 251-267 (March) S.

WEBBER, J. P. H.
On the Extension of the Kantorovich Method, pp. 146-149 (Feb.).

WHEATCROFT, S.
The Influence of Operational and Technical Factors on Air Transport Regulation (Lecture Summary), p. IX (March); (Lecture), pp. 623-629 (Aug.).

WHITTLE ENGINE
Report on the Whittle System of Aircraft Propulsion (Theoretical Stage)—October 1935, pp. 128-133 (Feb.).

WICKENS, A. H.
The Advanced Passenger Train (Lecture Summary), p. XXXIV (Dec.).

WILKINSON, K. G.
Automatic Landing in BEA's Trident Operations—A Review of Effort and Achievement (Lecture), pp. 187-196 (March).

WILLIAMS, D. D. and MORRISS, D. P.
Free-Jet Testing of a Supersonic Engine/Intake Combination (Symposium), pp. 212-218 (March).

WILLIAMS, J. E. D.
Economic and Investment Opportunities in the Light of the Edwards Report (Lecture), pp. 229-230 (March).
The Impact of STOL Aircraft Design on Airport Development (Lecture Summary), p. XXXII (Nov.).

WILLIAMS, P. R. G. and QUICK, J. M.
The Impact of STOL Aircraft Design on Airport Development (Lecture Summary), p. XXXII (Nov.).

WILLIAMS, R., HAGGENMACHER, G. W. and ROBINSON, J.
Elastic and Equilibrium Matrices of General Semi-Monocoque Membrane Elements, pp. 502-506 (June).

WILMER, M. O.
Some Aspects of Optimisation in the Design of Civil Transport Aircraft (Lecture Summary), p. XI (March).

WILSON, D.
Advances in Motion Platform Systems (Lecture Summary), p. XXI (Aug.).

WILTSHIRE, D. A.
Space Technology "Spin-Off" Benefits to Mankind, pp. 533-538 (July).

WIND TUNNELS
Experiments Towards a Circulation-Controlled Lifting Rotor, J. Dunham, Part I: Wind Tunnel Tests, pp. 91-103 (Jan.) S; Part II: A Model Rotor, pp. 175-186 (Feb.) S.
The Stability of a Wind Tunnel Model on Flexible Supports, W. G. Molyneux, pp. 399-407 (May).

WIND TUNNEL TESTING
Air-Breathing Engine Testing in the Propulsion Wind Tunnel Facility of the Arnold Engineering Development Center, R. W. Hensel and M. Pindzola, (Symposium), pp. 197-205 (March).

WINGS
Behaviour of the Vortex Sheet at the Trailing Edge of a Lifting Wing, K. W. Mangler and J. H. B. Smith, pp. 906-908 (Nov.).

WOODFIELD, A. A.
Thrust Measurement in Flight: The Requirements, Current Situation and Future Possibilities (Symposium), pp. 314-321 (April).

WOODHEAD, M. A. and PORTER, B
Synthesis of an Aircraft Roll-Stabilisation System: An Application of Inverse Optimal Control Theory, pp. 390-392 (May).

WOOLDRIDGE, M. J.
Aero-Thermo-Structural Optimisation in Radome Design, pp. 237-240 (March).

WRIGHT, ORVILLE
Presentation to the Society of a bust of Orville Wright (Illus.), p. XVI (June).

WRIGHT, THEODORE PAUL, HonFRAeS, 1895-1970
An Appreciation, p. XXVIII (Oct.).

WRIGHT, WILBUR AND ORVILLE, MEMORIAL LECTURE, FIFTY-EIGHTH
The Engine Scene, S. G. Hooker, pp. 1-11 (Jan.).

YATES, R. M., and AUGUSTINE, N. R.
The Evolution of the US Tactical Missible Programme (Lecture), pp. 957-966 (Dec.).

YOUNG PEOPLE'S LECTURE
Flight in the Restless Atmosphere, R. S. Scorer (Lecture Summary), p. XXXII (Nov).

ZAMIR, M.
Boundary-Laver Theory and the Flow in a Streamwise Corner, pp. 330-332 (April).
